

Title	Creekside Landscapes		
<i>Code</i>	STKTV3CLERASM		
<i>Prerequisites</i>	-		
<i>Description</i>	The course offers a partially scientific but also practical course of planning and designing creekside landscapes. The course starts with a 5-week seminar, 2 hours a week, when students discuss historical and present aspects of small watercourse landscapes. During the second part of the course students are welcomed for two field trips: a guided walk through an urban creekside and a one-day trip to the Duna Museum in the small Hungarian ville of Esztergom. In the third part of the course students are asked to prepare a short presentation and complete their own field survey of a chosen Hungarian creek.
